FAQ

When an Office 2013 volume edition client is installed, it will automatically attempt to activate via either Active Directory by using its existing domain pairing or a DNS-discoverable KMS host on your organization network.

1. [pack office](#)
2. [pack office etudiant](#)
3. [pack office 365](#)

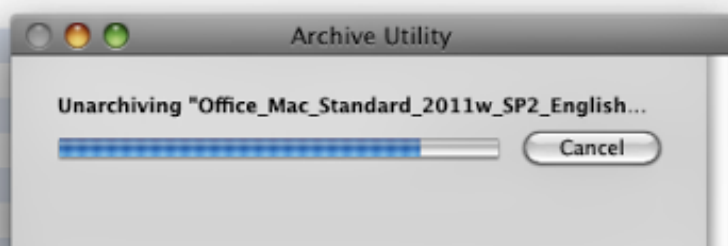

• If setting up a KMS host, open port 1688 to allow the KMS host service through the firewall: • Open Control Panel and click on the Windows Firewall icon.. All volume editions of Office 2013 client products are pre-installed with a Generic Volume License Key (GVLK) key, which supports automatic activation for both KMS and Active Directory-Based Activation, so you will not need to install a product key.
